When used with item number given in the overview (beginning with "RA2..."), grid dividers are always supplied separately (standard supply).

Instead of the customary method of supplying the box and grid divider separately, the box can be supplied with the grid divider already inserted (no surcharge!). For this purpose the code in the item number for the grid divider (highlighted in yellow) must be added to the item number of the box.

Example: ALPHA Box long2 of height 50 mm, white, standard as well as inserted grid divider of height 30 mm with 10x20 cells.

**KA2050WH1 + 0301020N = Cat. No. KA2050WH10301020N**
